

Wolfgang Publications - Car & Bike Books

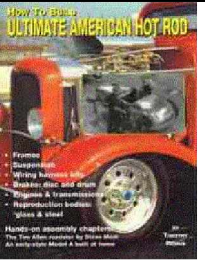

ADVANCED SHEET METAL FABRICATION by Timothy Remus A photo-intensive how-to book. The projects presented in this book involve multiple panels – each of which must be designed, cut, shaped and then joined to the others to create the finished fender or gas tank. Photo sequences cover building the buck, creating a paper template, cutting the steel or aluminum, forming the piece, welding and finishing. ISBN 192913312X WP-ASMF 144 pages 275mm x 215mm, 240 images 60% colour, softbound **\$49.95**

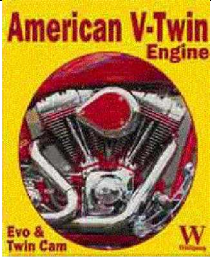

HOW TO BUILD A CHOPPER From Bare Frame to Finished Motorcycle by Timothy Remus This book is designed to help you build your own chopper. Twelve chapters cover history, frames, chassis components, wheels and tires, engine options, drivetrains, wiring, sheet metal and hardware .Included are the assembly sequences photographed Included are the assembly sequences photographed in the Arlen Ness, Donnie Smith and America Thunder shops. ISBN 1929133065 WP-BAC 144 pages 275mm x 215mm many b&w images softbound **\$59.95**

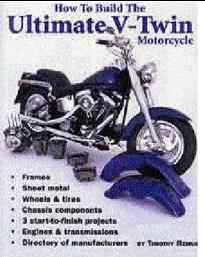

AMERICAN POLICE MOTORCYCLES by Buck Lovell American Police Motorcycles brings to life over 80 years of motorcycles and the men who rode them. Everything from brass-era Indians and Hendersons to Harley-Davidson FXRPs from the 1980s. In between are Harley JDs and Indian Fours, all converted to police use. More than just great photos, this book includes advertisements and anecdotes from those early years. ISBN 1929133081 WP-APM 144 pages 245mm x 210mm 150+ b&w images softbound **\$64.95**

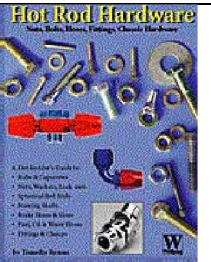

HOW TO BUILD ULTIMATE AMERICAN HOT ROD by Timothy Remus Nine chapters provide an overview of the vast range of available products so you can better choose the best parts for your hot rod. Covered here is everything from bare frames to complete rolling chassis. From independent Corvette suspensions to nostalgia Ibeams. From disc brakes to drum. From fiberglass to steel: professional answers to many of your questions ISBN 0964135887 WP-UAHR 144 pages 275mm x 215mm 250+ photos softbound **\$49.95**

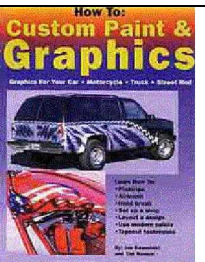

AMERICAN V-TWIN ENGINES HOP-UP & REPAIRS Like two books under one cover, **American V-Twin Engine Hop-Up & Repair** is divided equally between the Twin Cam and Evo engines. Topics include History & Development, Carbs, Cams, Heads and Combinations that work. Photo sequences show installation of cam(s), top-end kits, and a complete motor assembly. ISBN 1929133049 WP-AVTE 160 pages 275mm x 215mm many b&w images softbound **\$49.95**

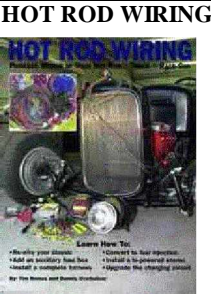

HOW TO BUILD THE ULTIMATE V-TWIN by Timothy Remus Ten chapters help you build a bike from scratch: Design the motorcycle that meets your needs and budget. Buy the right frame, equip it with the engine and transmission that's right for your riding style. Pick a fork and triple trees that work with your frame. Choose and install the best wheels, tires and sheet metal. Assemble all the parts into a finished bike. Register and insure your new bike. ISBN 0964135825 WP-UVM 144 pages 275mm x 215mm many b&w images softbound **\$49.95**

HOT ROD HARDWARE by Timothy Remus Nine chapters explain: Why it pays to use good hardware, What makes a quality capscrew, When to use specialized fasteners and what makes them so good, Why a good self-locking nut is generally better than a lock-washer, How to get accurate torque readings, When to use braided stainless hose and What makes up a good spherical rod end or U-joint. ISBN 1929133014 WP-HRH 128 pages 275mm x 215mm 200 images softbound **\$49.95**

HOW TO CUSTOM PAINT & GRAPHICS by Jon Kosmoski & Timothy Remus This book explains exactly how to apply graphics to nearly any vehicle. Early chapters cover shop set up, chemistry of paint, pinstripping and gold leaf work. Interviews with artist Nancy Brooks and educator Jeremy Vecoli provide them an opportunity for them to share their knowledge with a wider audience. Chapters four through seven feature start-to-finish photo sequences. ISBN 096413585X WP-CPG 128 pages 275mm x 215mm 250+ photos softbound **\$49.95**

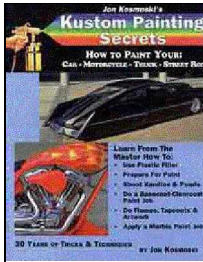

HOT ROD WIRING by Timothy Remus From the theory section, the text quickly moves to a discussion of Batteries-Starters-Alternators, Switches, Gauges, Accessory Wiring, Modern Automotive Stereo and Fuel Injection. Includes a hands-on Harness Installation, and a Trouble-Shooting guide. Written by electrical technician Dennis Overholser and how-to author Tim Remus, this book is filled with wiring diagrams, buying advice and shop sequences that explain the nuts and bolts of wiring and re-wiring ISBN 0964135868 WP-HRW 144 pages softbound 275mm x 215mm 300+ b&w images **\$49.95**

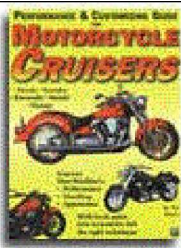

HOW TO BUILD A KIT BIKE by Timothy Remus Explains how to choose the best kit and then assemble those parts into a complete running motorcycle. Four start-to-finish assembly sequences cover the construction of a soft-tail from Custom Chrome, a Y2K bike from Arlen and Cory Ness, a right side drive/250 bike from Biker's Choice, and a soft-tail Chopper kit from American Thunder. ISBN 1929133111 WP-KIT 275mm x 215mm 144 pages, Softbound over 300 photos and illustrations (over 50% in color) **\$59.95**

Wolfgang Publications - Car & Bike Books

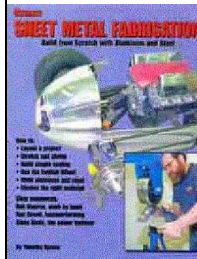

KUSTOM PAINTING SECRETS by Jon Kosmoski Learn how to set up your shop, how to apply primer, and how to put on the final topcoat. In the Shop sequences provide a hands-on look at a variety of projects from simple paint application to complex art work (documented with both color and black and white photography). Follow along as Jon does tape-outs on a dragster, and flames on a set of Harley-Davidson gas tanks. ISBN 0964135833 WP-JKKPS 128 pages 275mm x 215mm many b&w

images softbound **\$49.95**

PERFORMANCE CUSTOMISING GUIDE FOR MOTORCYCLE CRUISERS by Timothy Remus Includes cruiser bikes from Honda, Kawasaki, Yamaha, Suzuki and Victory. This new book offers 144 pages of help with: Planning, Engine Hop Up, Suspension, Wheels and Tires, Brakes, Paint, Accessories, Fasteners and Sheet Metal. Designed to help with both the choice of parts and their installation,

this book is part buyer's guide and part installation manual. ISBN 1929133022 WP-MC 144 pages 275mm x 215mm 300+ b&w images softbound **\$49.95**

ULTIMATE SHEET METAL FABRICATION by Timothy Remus Eleven chapters cover: Design and Layout, Tools and Materials, and Welding Sheet Metal. Presented here is the information you need to build your own sheet metal parts from steel or aluminum. From simple hand work with a hammer and dolly to sophisticated shaping with large power tools, this book covers the methods you need to shape sheet metal. ISBN 0964135892 WP-USMF 144 pages 275mm x 215mm 350+ photos softbound **\$49.95**

ULTIMATE V-TWIN MOTORCYCLE CHASSIS by Timothy Remus The foundation of any custom or scratch built motorcycle is the frame. The length, the look and the handling are all determined by the chassis. In ten chapters this book presents an overview of frame dimension and design, a buyer's guide of the most popular frames on the market, and analysis of the best forks, shocks, brakes, wheels and tires. ISBN 0964135876 WP-UVMC 144 pages 275mm x 215mm many b&w images softbound **\$49.95**
